

Ordering Information for UltiPhotos.com:

At UltiPhotos, we strive to present photos that showcase the amazing sport of Ultimate and capture great memories for the athletes who play and the fans who appreciate the sport. UltiPhotos depends on your support to continue to bring you these photos, so please purchase your favorite photos as high-quality prints or digital downloads—they make wonderful gifts and permanent memories of your time playing Ultimate.

Adding to Your Cart:

All Ultimate photos are available to be licensed for personal use as digital downloads and high-quality prints on a variety of products. We highly recommend creating an account on UltiPhotos.com, as this will guarantee your cart will be saved should you not complete your order all at once.

To add to your cart, simply click to view the photo, then select the plus sign (+) next to the featured product of your choice to the right of the displayed photo. If you'd like to view more product options, click the "See All Products" button below the featured products.

If you're ordering several photos from a collection in the same product type (i.e. 4x6 prints), you can follow these steps:

1. View the entire collection, where you can see thumbnails of each photo.
2. Click on "Select Photos" near the top right of the page.
3. Click on each photo you would like to order in one size.
4. Click on "Buy" near the top right of the page. This will take you to our products directory.
5. Navigate to the category you need and click "See All". A few options for each are listed with the categories to help guide you.
6. Select the product you're interested in to the right of the photo, then click "Add to Cart".
7. You will then be asked if you'd like to continue shopping or to view your cart. The selected photos will be in your cart in the product and size you selected!

Viewing and Editing Your Cart:

You can always view your cart by clicking through the link in the top right of the browser screen. Here you can edit your selections in a few ways:

- **Crop:** If you're ordering prints, your photo MAY need to be cropped! This is because of the aspect ratio of the photo vs the aspect ratio of the product. You should always check the crop on your prints before ordering to avoid losing important parts of the photo! Click on the thumbnail of the photo in your cart, then click "Edit". You should be able to move the crop window around. If you aren't happy with any crop option, you may want to select a different size print that better fits your photo.
- **Product:** You can change the product ordered by clicking "Edit" next to the product name in your cart.
- **Quantity:** You can adjust the quantity of each product in the "Quantity" section of your cart.
- **Delete:** You can delete any photos in your cart by clicking the "X" to the right of each entry.
NOTE: If you selected multiple copies of a single product in the quantity section, this option will delete ALL copies from your cart. If you want to reduce the quantity, just use the quantity section.

Placing Your Order:

Once you've added everything to your cart and checked it over for any edits, you can proceed to checkout. If you aren't already logged in, you will be asked to log in, create a new account, or check out as guest. We highly recommend creating an account to help save your cart if you need to walk away now or for future orders!

If you ordered any digital downloads, you will be asked to agree to any photo licenses that apply to the product(s) you have chosen. Any licenses will also be included with your download so you can refer back to them for appropriate uses.

If you have a coupon code, you can add it in the "Coupon Code" section before finalizing your order.

You should receive an email confirming your order from our website hosting provider, Zenfolio. If you ordered digital downloads, this email should include a link to download those photos. They will download in a zipped file (including the license(s)). If you are downloading on mobile, you will need a separate app to unzip the file.

Services, Discounts, and Commercial & Media Use

Please email orders@ultiphotos.com for more information about:

- Photographing a tournament or a team at a tournament
- Photo purchase for publication or promotional use (commercial & editorial)
- Slideshows for team or tournament websites
- Volume discounts (see instructions at end of this document)

Digital files for personal use

- High-quality jpeg digital downloads are available in 4 sizes for personal use: Web-size (800px), Low-res (1600 px), High-res (5MP), and Full Size.
 - Web-size is suitable for web use up to 800 px. It is not recommended for print use.
 - Low-res is suitable for web use up to 1600 px. It is recommended for prints up to 4x6.
 - High-res is recommended for print use up to 8x12.
 - Full size images will vary, as their size is dependent upon different photographers' camera gear as well as the crop they chose. In general, these photos will print larger than 8x12, but limits will vary.
- Watermarks do not appear on downloaded files
- Please email orders@ultiphotos.com for commercial and editorial use

Prints for personal use

- Photos are printed from the original high resolution files, suitable for up to 24"x36" prints. (Dependent on original file size.)

- We are partnered with **Mpix Lab**, **MpixPro Lab**, **Pikto**, **Zenfolio US**, **Zenfolio Europe**, **NuLab**, and **NuShots** to provide professional quality prints, frames and unique photo apparel and gifts to the US, Canada, Europe, and Australia. (Product availability may vary.)
- Cropping: You can select standard cropping options when ordering prints. See above in “Viewing and Editing Your Cart”.
- Custom edits: if you want custom photo editing and/or cropping from the original uncropped RAW files, please email [**orders@ultiphotos.com**](mailto:orders@ultiphotos.com) for a quote.

Sharing Photo Favorites with UltiPhotos (Volume Discounts)

You can make and share a list of your favorites with UltiPhotos to inquire about volume pricing (this can also be used to share photos with friends or family). To make your favorites list:

- View an individual photo and select the heart  icon above it.
- "My Favorites" will appear top left of the page -- click to manage this collection and "Share" it (Share button top right)
- To get a quote on a volume discount, share your list with UltiPhotos and mention desired sizes and products (e.g. prints or digital downloads) to the form that pops up, enter your email address then click send.
- UltiPhotos will respond directly to the email address you provide.
